

The Zeta Zephyr

ZETA ZETA OF LAMBDA CHI ALPHA AT PENN STATE

Exceptional Year Well Underway

The ball is rolling here at Zeta Zeta! I would like to formally congratulate all the undergraduate members on a recruitment well done. The undergraduate chapter is excited to announce the welcoming of 24 new associate members to Lambda Chi Alpha, Zeta Zeta! Twenty-four new members is the largest class on campus and was achieved with the smallest recruitment budget on campus as well. The word is getting out about the strength of our brotherhood and what it has to offer.

But that's not all that's going on. Over the past eight weeks, the chapter has placed a great deal of focus on two things: improving alumni relations and improving the condition of our beloved house.

With the overwhelming support of our alumni board, Zeta Zeta has taken a big step toward improved relations and improved operations. On October 20 of this year, we held the first meeting of our alumni advisory board, a committee chaired by '87 graduate James Vachon and established to pair each officer with an alumni mentor. In attendance that weekend was the general fraternity's chief operating officer, Brad Little, and director of chapter services, Andy Longo. The two were highly impressed with the momentum our chapter has generated and offered advice on goal setting and striving toward continued excellence. The meeting was complemented by an alumni work weekend in which we accomplished several objectives including painting the downstairs and preparing for the upcoming homecoming event. A big "thank you" goes out to all the alumni who helped make that weekend such a success.

The recent support of our devoted alumni has made all the difference in every aspect of our fraternity this semester, from the basic assistance in house improvements to the cherished experience of working side by side with brothers who share the genuine commonalties of the Lambda Chi Alpha experience.

We want your help, too! I ask all of you to come out and give us a chance. Stop by and see how nice the house looks, let an undergraduate tell you how well we're doing in Thon and how we have dramatically improved our chapter's GPA, come hear how we placed fourth in Greek Sing this year and how we are leaders on this campus, both within the Greek community and beyond. Come out to visit old friends, remember the days you spent at 351 E. Fairmount, and reinvent that spirit which makes Zeta Zeta a cornerstone in our personal development.

Hope to see you soon!

Yours in ZAX,
Douglas B. Burrill '02
High Alpha

Undergraduate Chapter Review

By James McTigue '04, High Beta

My name is James McTigue, and I am the High Beta (vice president) of Zeta Zeta. We have participated in many successful philanthropic events. The most established and well known is Thon, created to battle childhood cancer through research and to foster hope with personal care. Paired with Alpha Delta Pi sorority, we jointly raised \$55,000 last time and expect to top that figure in 2002.

We are also the sole Greek participant in the Men Stopping Rape Organization, founded to spread awareness and provide speakers at campus events. The house also participates in all IFC-run community service and philanthropic activities, like Greek Sweep, giving out Halloween candy to local children and multiple other events.

On the social side of things, we've just completed the week-long Greek Sing competition, in which we and Alpha Omicron Pi sorority earned fourth place overall. Our fall formal is also coming up and promises to be a spectacular event, as it has been in years past.

With our numbers once again flourishing, our activity within the university and on the campus has bloomed and shows no sign of slowing. Lambda Chi Alpha has produced leaders for almost 90 years, and we here at Penn State are proud to continue that tradition of turning boys into men who serve their community and their brothers, learn valuable life lessons and have lots of fun doing it.

Letter From the President

Dear Brothers:

The events of September 11, 2001, shocked, angered, and refocused our lives as few others have. Being on "the street" for as long as I have, the tragedy in the financial district struck particularly close to home. A number of my friends were lost or are still missing. The entire Alumni House Corporation and I offer our sympathy and support to those who are in similar situations to my own.

It was the loss of friends that has stayed with me daily since the attacks. My own refocus is on my family and friends – more hugs for the kids, an extra kiss for my wife, extra visits to my mother who now lives close by, and harder work as Alumni Corporation President at preserving and improving our chapter at Penn State.

I have tremendously good news since my last letter to you. We have thus far raised over \$36,000 in our fundraising efforts. This enabled us to pay the back taxes (we still owe our present bill), catch up the mortgage, pay the fire insurance bill, and start to pay off the outstanding balance with the International Fraternity. We had funds to begin long overdue repairs to our beloved chapter house. Gutters and fascia boards were fixed, bathroom problems were corrected (minor ones; however, major ones to follow), water-damaged areas were fixed, the exterior locks were replaced, and the fire code violations were remedied.

On the non-financial front, we have set up an alumni advisory board (an alumni advisor for each active officer), expanded the house corporation board to its full staff of 17, hired an outside CPA firm to collect and disburse funds, started a preliminary structural study of the house, set up alumni events at every home game, negotiated a very favorable matching payment plan with the international fraternity, created a new alumni website, begun to publish the *Zephyr* quarterly, created budgets and cash flow analysis statements, and have directly worked with the active chapter on maintenance of the house.

There is still much to do, and we need your help more than ever. The hot water tank failed after 16 years. As I said before, the bathrooms need major repairs. The exterior needs to be painted. The kitchen range, a resident of 30 years, is no longer repairable. The downstairs floors need refinishing immediately. We need new curtains as well as another freezer. I could go on, but for now these are the most pressing items.

The main reason that so much is needed so soon is that we should have overcapacity in the house next year. The actives' fall rush campaign was the largest on campus: 24 new associates joined us last September. For perspective, 700 bids went out from 55 fraternities on campus. You do the math. It was an outstanding job by our active brothers! It is getting better, but we do need your support now. We estimate that we still need \$45,000 for various plans and that does not address the long-term issue of significantly paying down our mortgage. We are attempting to increase cash flow through refinancing the debt, but we would like to refinance a smaller amount than we currently have.

I'll ask again, but first let me thank all who have already donated funds. Come back, tour the house, meet the actives, and see your old friends. Do it now! As recent history has tragically proven to me, there are no guarantees for another opportunity.

Sincerely yours in Z.A.X.,
Tom Gasbarre '82, Chairman
Alumni House Corporation

Both Mr. and Mrs. Duane Doty turned 80 this year! They were with us at the chapter house for a birthday celebration during homecoming. Be sure to send them your best wishes — or better yet, stop by to see them if you are in town. Zeta Zeta wishes them many more years of happiness!

Last July, I took an account executive position and moved to the Raleigh/Durham, N.C., area. After five-plus years of extensive travel, I am now solely responsible for the three major health systems in this area and only travel for Penn State football games. After taking my first season off in almost 12 years, I'm looking forward to getting to some games this year and seeing the crew.
